PSR 100 – RUST AND CORROSION INHIBITOR

DESCRIPTION:

An easily applied, mobile liquid that dries to a semi-permanent, waxy film. PSR-100 stops metal from rusting and corroding. It penetrates, lubricates and can be used to loosen rusted and corroded parts. PSR-100 displaces fresh water or saltwater, to prevent rust and corrosion. PSR-100 protects all metals from corrosion, oxidation and rust.

USES:

PSR-100 penetrates and stops rust creepage in any area receiving hard, abrasive and excessive wear.

- Cables, Chains, Snatch Blocks and Winches – Operating in and out of fresh or saltwater.
- Pipe and Steel – Protects pipe and steel from rust while in storage or in use.
- Factories and Shops – Protects dies, tools and bright, machined, metal parts from rust and corrosion.
- Farm Equipment, Rice and Grain Combines, Tractors and Implements – Protects metal from rust while in storage or in use.
- Sporting Goods, Firearms, Fishing Reels, Metal Components on Boats, Sporting Vehicles, Outboard Motors – Loosens rusted parts, lubricates and protects from rust and corrosion.
- Oil Rigs, Shore and Offshore – Protects any and all metals subject to rust and corrosion.
- Trucks, Automobiles – Undercoating protection and body protection against rust and corrosion.
- Ships, Tugs, Tankers, Shrimp Boats – Protection from metal parts subject to rust and corrosion. Extends the life of cables. Can also be used to treat large metal pieces, shipped above deck, to avoid crating charges.

PACKAGING:

1 Gallon, 5 Gallon, 55 Gallon Drum

FREEZING TEMPERATURE:

-20°C

COVERAGE:

Approximately 300 square feet per gallon, depending on application and porosity of surface.
