S-05 REDUCER

DESCRIPTION:

S-05 is a pure, anhydrous, alcohol thinner. We specify an extremely low water content for this solvent, the moisture content must be less than one percent. S-05 assures you of a fine finish, when applying coatings and is used to clean up your equipment. The amount of S-05 Reducer required will vary depending on the product being applied, the application equipment and the weather conditions. We recommend spraying some S-05 Reducer through your spray equipment, to flush it out, prior to spraying paints and coatings thinned with S-05. Please check with a Preservo Paint technician for a recommendation specific to your job.

USES:

Reducing VPP-702 Vinyl Phenolic Primer
Reducing VS-190 Vinyl Sealer
Removing Glues and Adhesives
Cleaning Equipment
Solvent Wiping

CONTAINER SIZE:

F-Style Gallon Cans
5 Gallon Cans
55 Gallon Drums
