S-10 ACRYLIC REDUCER

DESCRIPTION:

S-10 is high quality Toluene thinner used for reducing Acrylic Thermo Plastic. We specify a very low water content for the solvent used to make S-10 Acrylic Reducer. S-10 assures you of a fine finish when applying Acrylic Thermo Plastic and is used to clean up your equipment. The amount of S-10 Acrylic Reducer required will vary depending on the product being applied, the application equipment and the weather conditions. We recommend spraying some S-10 through your spray equipment, to flush it out, prior to spraying Acrylic Thermo Plastic. Please check with a Preservo Paint technician for a recommendation specific to your job.

USES:

Thinning AC-300 Acrylic
Cleaning Equipment
Solvent Wiping

CONTAINER SIZE:

F-Style Gallon Cans
5 Gallon Cans
55 Gallon Drums
